ABOUT ME

I am a Dentist; I was accepted in the entrance examination with a range of 12th in 2018-2019 in faculty of dentistry in Sana`a University. I have graduated from Sana`a University with a GPA of 93.8% with honors. I tend towards the academic side and I wish to continue my postgraduate studies in the department of orthodontic, Insha`Allah. I love working hard specially in dentistry field

I am keen to present new developments in dentistry and provide services in the best possible way. I am interested in the field of scientific research. I love reading, explaining, and scrutinizing everything I do, even if it costs me a lot of effort and time to present it in the most complete way possible. I tend to have scientific discussion with others and to take from those who provide me with knowledge, experience, and experiments. I strive to develop myself and I am ready to seize opportunities, Insha`Allah
