## II. Course Description:

This course will **provide to students** with knowledge and skills on Obstetric and **covers** topics in gynecology involves menopause and post reproductive health, genitourinary problems, urogynaecology and pelvic floor problem, benign conditions of the ovary and pelvis and Benign conditions of the uterus, cervix and endometrium. Also **focuses** on the gynecology disease.

Prepared by:	Reviewed by:	Head of department	Quality Unit:	Dean of Medicine Faculty	Center of Development and Quality Assurance Dean
Dr. Amal AL-asoli	Dr. Salwa Al-Ghomeri	Dr. Muneerah Al-fayik	Dr. Fadhl Shujaa Al-deen	Dr. Salwa Al-Ghomeri	

III. Course Intended Learning Outcomes (CILOs) : Upon successful completion of the course, students will be able to:		Referenced PILOs		
<b>A. Knowledge and Understanding:</b>		<b>*I, P or M/A</b>		
a1	Recognize the normal human growth and development of the female sexual organs and pelvis.	M	A1	Describe the general and basic sciences related to human body structure and functions with emphasis on normal and abnormal conditions.
a2	Identify the etiology, pathogenesis, clinical manifestation, diagnosis differential diagnosis and complication of different gynecology diseases.	M	A3	Explain the pathological and pathogenesis changes in various diseases, and their etiological triggers including genetic, developmental, infectious, metabolic, endocrinal, autoimmune, neoplastic, traumatic, degenerative and occupational factors.
<b>B. Intellectual Skills:</b>				
b1	Distinguish between physiological and pathological performance of body cells.	M	B1	Compare between normal and abnormal conditions and predict the appropriate treatment or intervention.
b2	Analyze data obtained from gynecological history, physical examination and clinical investigations to reach a final diagnosis and plan the management of gynecological disease.	M	B2	Analyze and interpret the finding from history, clinical examination and investigations to propose a diagnosis and develop a shared management plan for common acute, chronic and urgent physical
